## THEMATIC SESSIONS

### NANOPLASTICS & NANOCOMPOSITES

14:30	Nanocomposites routes for improved polymer function properties: synthesis and key-factors	<b>Eliane ESPUCHE</b> • UCB - IMP, France
15:00	Characterization and presence of nanoplastic in our environments	<b>Julien GIGAULT</b> • CNRS - Geosciences, France
15:15	Raman Tweezers for small microplastics and nanoplastics identification in seawater	<b>Marc LAMY DE LA CHAPELLE</b> • Univ. Le Mans - IMMM, France
15:30	Core-shell diblock copolymer nanoparticles prepared by visible light photopolymerization-induced self-assembly: Application...	<b>Vitalii TKACHENKO</b> • Univ. Haute Alsace - IS2M, France
15:45	Overview of French research on microstructure-mechanical properties relationships in polymer nanocomposites	<b>Florent DALMAS</b> • INSA Lyon - MATEIS, France
