

BEST ORAL & POSTER AWARDS LAUREATES

Best Oral Awards

The best Flash Presentation Prize 2019 in the “*Young Researchers*” session was awarded to:

Ghadir KALOT (Grenoble Alpes University – IAB Laboratory, France) for her oral entitled “*Polymer-based nanogels for image-guided Boron Neutron Capture Therapy*”

The SFNano 2019 best Oral Presentation Prizes were awarded to:

- **Raphaël CORNU** (University of Franche-Comté – PEPITE Laboratory, France) for his oral entitled “*Small Silica Nanoparticles Transiently Modulate the Intestinal Permeability by Actin Cytoskeleton Disruption*”
- **Alba NICOLAS-BOLUDA** (University of Paris – MSC Laboratory, France) for her oral presentation entitled “*Targeting tumor-associated fibroblast and modulation of tumor stroma in cholangiocarcinoma with gold decorated iron oxide nanoflower – mediated photothermal therapy*”

The NJC – RSC 2019 best Young Researcher Talk Prize in “*Nanochemistry*” and “*Nanomaterials*” sessions was awarded to:

- **Marlène PALLUEL** (University of Bordeaux – ICMCB Laboratory, France) for her oral presentation entitled “*Synergy between Surface Plasmon Resonance and Switching Properties in Gold@Spin Crossover Nano-Composite*”

The best C'Nano 2019 Young Researcher Talk Prize in “*Nanophotonics & nano-optics*” session was awarded to:

- **Rémi BRICHE** (CNRS – INL Laboratory, France) for his oral presentation entitled “*3D confinement of light inside rolled-up 2D photonic crystal membranes*”

Best Posters Awards

The C'Nano – SFNano 2019 best Poster Prize was awarded to:

- **François FASQUELLE** (University of Lille – LIRIC Laboratory, France) for his poster entitled *“Impact of the inner structure of maltodextrin nanoparticles on the development of a mucosal vaccine”*

The SFNano – C'Nano 2019 best Poster Prize in *“Nanochemistry”* session was awarded to:

- **Jordan BEURTON** (University of Lorraine – CITHEFOR Laboratory, France) for his poster entitled *“predictive tools for desginging biocompatible nanoparticles and nanostructured materials”*

The C'Nano 2019 best Poster Prize in *“Nanomaterials”* session was awarded to:

- **Sharvina SHANMUGATHASAN** (CNRS – CRPP Laboratory, France) for her poster entitled *“Synthesis of Inverse patchy nanoparticles”*

The best C'Nano 2019 best Poster Prize in *“Nanophotonics & nano-optics”* session was awarded to:

- **Subha JANA** (ESPCI – LPEM Laboratory, France) for his poster presentation entitled *“Bio-detection with Whispering Quantum dots”*

The ESMI 2019 best poster Prize was awarded to:

Marie DEVREUX (University of Mons – SCGOB Laboratory, Belgium) for her poster entitled *“Novel manganese complexe based on a pyclen derivative: synthesis and relaxometric characterization”*

The B2I 2019 best Poster Prizes in *“bio-engineering/ interface & nanoconfinement”* was awarded to:

- **Lise ABIVEN** (Sorbonne University – LCMCP Laboratory, France) for her poster entitled *“Towards a novel biocompatible probe allowing for real-time temperature measurements at cellular scale”*
- **Maria Daniela BARRIOS PEREZ** (University. of Bourgogne – ICB Laboratory, France) for her poster entitled *“Improved model of ionic conductivity in 2-D MoS2 nanoporous membranes”*
